ACKNOWLEDGEMENTS

It is a pleasure to acknowledge the help of many people and institutions in the completion of this research.

My sincere thanks go to my advisor, Assoc. Prof. Dr. Benjavan Rerkasem, who made significant contributions throughout the development of this book. I also express my appreciation to the members of my examining committee, Asst. Prof. Dr. Manas Sanmaneechai, Dr. Christoph Mann and Mr. Phrek Gypmantasiri and others, Dr. Jen McComb, Dr. Soonthorn Buranawiriyakul and Dr. Rojarae Netsangtip, who have made valuable advises and criticisms for the success and readability of this book. Special thank goes to Mrs. Lakkana Dumkham, English teacher, for editing the final draft.

I am indebted to Dean Nakorn Nalampang, Dr. Methi Ekasingh, and all the MCC lecturers and staff for their patience, encouragement and impressive teaching.

Thanks are also extended to my classmates: Ashadi, De, Panya, Pocharawan, Pornwilar, Sirichai and Tony, including Suporn and Wawta for their valuable suggestions and inspiration. Many other colleagues have provided me with friendship and good relations, to them, I am also thankful.

It's also worthy to mention Khun Nuansri and Khun Pong for facilitating my paperworks and other needed documents, Khun Chanchai for assisting in computer work, and, Khun Jamlong and Khun Sithichai for assisting in field and laboratory work.

I am deeply grateful to the Rockefeller Brothers Foundation for the fellowship grant to study at Agricultural Systems Program, Chiang Mai University, which enabled me to gain both knowledge and experience. The partial grant from CIMMYT also made this research possible.

Finally, special gratitude belongs to my husband, HaiLong Wang, my son, Sheng, and my parents, whose love, patience and understanding provided me the inspiration and encouragement to pursue my graduate study in Thailand.
