Abstract (Thai)	v
Abstract (English)	viii
List of Tables	xiv
List of Figures	xvi
Abbreviations	xvii
Chapter I Introduction	1
1.1 Background	1
1.2 Agriculture – Its importance	2
1.3 Crops and cropping systems	3
1.4 Development of seed potato sector in Bhutan	4
1.5 Production constraints.....	7
1.6 Rationale	9
1.7 Objectives	11
1.8 Usefulness of the study	12
1.9 Scope of the study.....	12
Chapter 2 Literature Review	13
2.1 Seed systems	13
2.2 Contract farming	16
2.2.1 Benefits and risks of contracting small farmers.....	23
2.2.2 Benefits and risks to agribusiness	25
2.3 Synthesis of literature review.....	27
2.3.1 Seed system.....	27
2.3.2 Contract farming	27

	Page
Chapter 3 Research Methods.....	30
3.1 Conceptual framework.....	30
3.2 Site Selection	31
3.3 Contextual setting	32
3.4 Sampling technique and sample size	34
3.5 Data collection	36
3.5 Data analysis	37
3.6 Relationship of variables to the seed quality	38
3.7 Strengths, Weaknesses, Opportunities and Threats (SWOT)	39
Chapter 4 Description of the Study Area	40
4.1 Bio-physical characteristics of Phobjikha.....	40
4.1.1 Crop diversity and cropping systems.....	43
4.1.2 Demography and Access to services.....	44
4.2 Bio-physical characteristics of Sephu.....	45
4.2.1 Crop diversity and cropping systems.....	47
4.2.2 Demography and Access to services.....	49
4.3 Bio-physical characteristics of Ura.....	49
4.3.1 Crop diversity and cropping systems.....	51
4.3.2 Demography and Access to services.....	52
4.4 Summary	53
Chapter 5 Operating Mechanism of Seed Industry in Bhutan.....	54
5.1 Introduction.....	54
5.1.2 Seed industry development.....	55
5.1.3 Government policy towards the seed sector development.....	56
5.2 Local seed system	56
5.3 Bhutan national potato program era.....	57
5.4 Seed potato grower groups (SPGG).....	58
5.5 Druk seed corporation.....	59
5.5.1 Varietals release and plant variety protection.....	59

	Page
5.5.2 Maintenance breeding (MB ¹).....	60
5.5.3 Seed production	60
5.5.4 Seed distribution and marketing	61
5.5.5 Quality assurance.....	62
5.5.6 Measures to support domestic seed industry	62
5.5.7 Farm Facilities	63
5.6 Contract Seed Growers (CSGs)	64
5.6.1 Contract Seed Growers' Scheme	65
5.6.2 Seed Village Scheme	65
5.7 Prospect for DSC	66
5.8 Seed Potato Production and Distribution System	67
5.9 Pricing Mechanism	72
5.10 Quality Control	75
5.11 Marketing.....	76
5.11.1 Commission Agents (CA).....	78
5.11.2 Food Corporation of Bhutan (FCB).....	80
5.11.3 Local traders.....	80
5.12 Farmers' perception on existing operating mechanism	81
5.12.1 Motivation to participate in contract seed potato production	81
5.12.2 De-motivating factors for contract growers.....	82
5.12.3 Reason for Non-Contract farmer not joining CS P.....	83
5.12.4 Suggested change in DSC program	84
5.12.5 Farmer satisfaction with contract seed grower program.....	86
5.13 Aspects of contract farming	86
5.14 Performance of contract farming	88
5.15 Breakdown of seed system.....	91
5.16 Summary	91
Chapter 6 Seed Potato Production and Returns.....	93
6.1 Production.....	93
6.1.1 Area under potato cultivation.....	93

	Page
6.1.2 Seed Rate	95
6.1.3 Varietal Choice	95
6.1.4 Seed Source.....	96
6.2 Productivity.....	97
6.2.1 Yield increase by DSC Seed.....	98
6.2.2 Yield increase by changing seed.....	98
6.3.3 Yield assessment.....	99
6.3 Seed Quality.....	101
6.3.1 Quality Seed produce.....	104
6.3.2 Factors affecting seed quality	105
6.4 Economic returns	109
6.5 Performance of cash and carry system.....	111
6.6 SWOT analysis of contract seed potato production system in Bhutan.....	114
Chapter 7 Enhancement of Seed Potato Sector	117
7.1 Provision of inputs on credit.....	119
7.2 Strengthening of technical competency	120
7.3 Expansion of seed potato market.....	122
7.3.1 Improve domestic market	122
7.3.2 Explore international market for seed potato.....	124
7.4 Pricing policy for seed potato	125
7.5 Formation of seed grower groups	126
7.6 Improve stakeholders relationship	127
Chapter 8 Conclusion and Recommendations	130
8.1 Conclusion	130
8.2 Recommendations to improve the seed potato system	133
8.3 Suggested Further Research Issues.....	134
References.....	135
Appendix- I.....	142
Curriculum Vitae.....	147

List of Tables

Table	Page
1.1: Agro-ecological zones of Bhutan	2
3.1: Age of the growers.....	33
3.2: Average household size of the farmer interviewed	33
3.3: Land holding of the sampled farmers	34
3.4: Gross Margin obtained from different crops of sampled farmers	34
3.5: Number of farmers interviewed.....	35
4.1: Phobjikha geog (Wangdiphodrang).....	42
4.2: Cropping calendar in Phobjikha valley.....	44
4.3: Sephu (Wangdiphodrang).....	47
4.4: Cropping calendar at Sephu.....	48
4.5: Ura Geog (Bumthang)	51
4.6: Cropping calendar in Ura.....	52
5.1: Financial Performance of Druk Seed.....	63
5.2: Farm wise actual and cultivable area.....	64
5.3: DSC Seed Potato Statement, 1999 – 2003.....	69
5.4: SPGGs and numbers of group member for the Year 1994, 1997 & 2004.....	70
5.5: Seed Potato Demand and Supply for Six Eastern Dzongkhags, 1995-1999	71
5.6: Price of seed potato during 1999-2003	73
5.7: Seed price for Desiree (Red variety).....	74
5.8: Ratio of growers and commission agents	79
5.9: Reasons for leaving CSG program	82
5.10: Reasons for non-contract farmer not joining CSG program.....	83
5.11: Strategies to control and enforce rules relating to roughing.....	85
5.12: Strategies to control and enforce rules relating to crop rotation.....	86
6.1: Land holding of three categories of farmers	94
6.2: Productivity of potato within the categories.....	100
6.3: Productivity among the categories.....	100

	Page
6.4: Affect of seed change on seed quality	101
6.5: Chemical used by three categories of farmers	102
6.6: Weedicide used by three categories of farmers	102
6.7: SSP used by three categories of farmers.....	103
6.8: Seed quality produced by three categories of farmers.....	104
6.9: Coefficients of Regression analysis.....	106
6.10: Economic returns from 1 ha of potato among three categories of farmers.....	110
7.1: Estimates of Seed Potato Demand for West Bengal & Assam.....	125

List of Figures

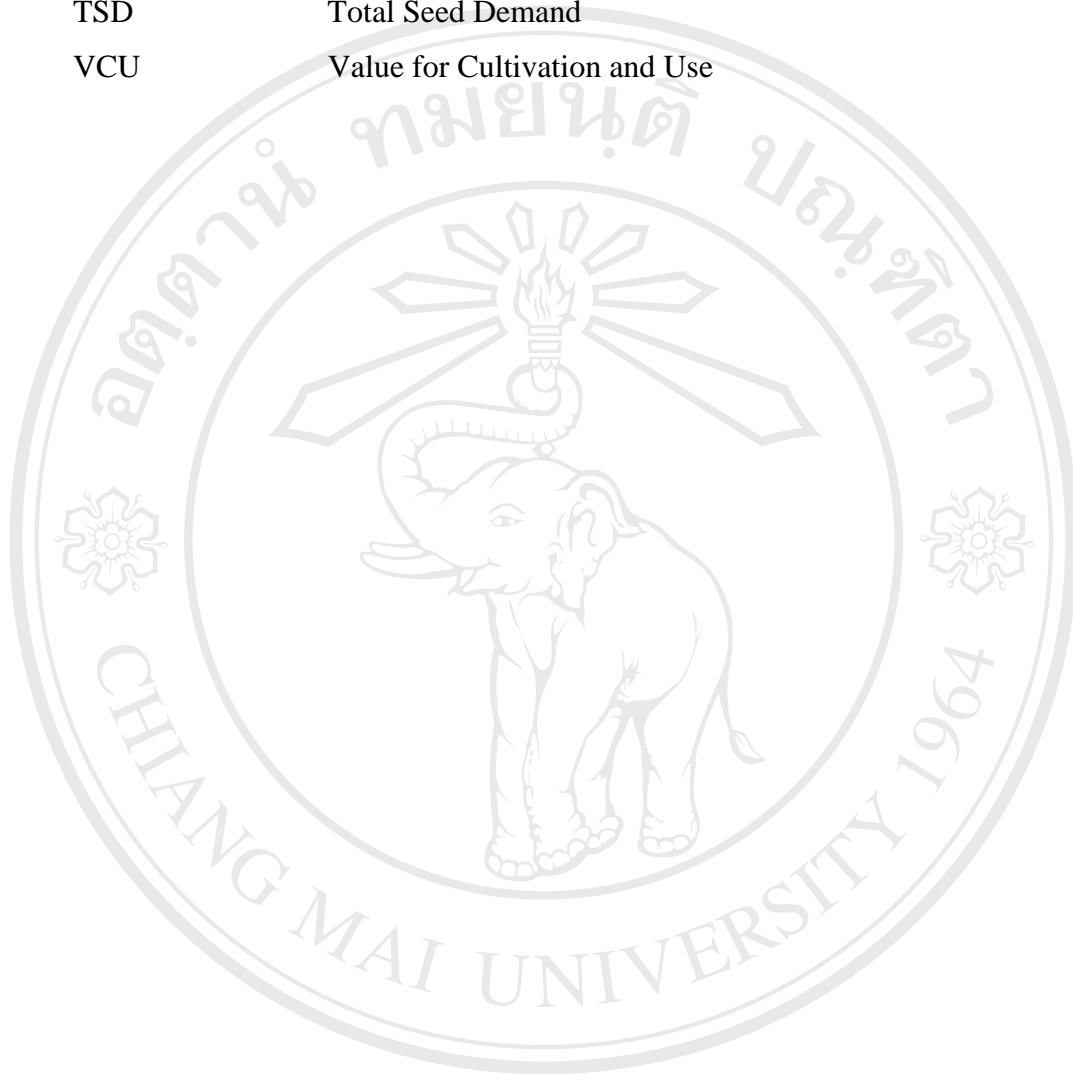

Figure	Page
1.1: Problems in seed potato production.....	8
3.1: Conceptual framework.....	30
3.2: Location of Study Area.....	32
4.1: Land Use Map of Phobjikha.....	41
4.2: Rainfall and temperature of Phobjikha valley 2003	42
4.3: Crop types and share of cropped farmland in Phobjikha valley	43
4.4: Land Use and Land Cover, Sephu geog	46
4.5: Crop types and share of cropped farmland in Sephu valley	48
4.6: Land use map of Ura.....	50
4.7: Crop types and share of cropped farmland in Ura valley	51
5.1: Schematic representation of Seed Potato production system	68
5.2: Marketing channel of seed potato.....	77
5.3: Sources of motivation to produce seed potato.....	82
5.4: Suggested change in DSC program	84
5.5: Respondents' suggestions for a seed grower program.....	85
5.6: Advantage of participation in contract seed production	89
5.7: Disadvantage of participation in contract seed production.....	90
6.1: Trend in area cultivated with potato	94
6.2: Seed rate used by different category of farmers over the years.....	95
6.3: Varietal Selection.....	96
6.4: Seed Source.....	97
6.5: Yield increase by DSC Seed.....	98
6.6: Percent yield increase by changing seed.....	99
6.7: Percentage of quality seed produced	104
6.8: Seed Replacement.....	108
6.9: Proportion of expenditure incurred in producing 1 ha. Potato	111

Abbreviations

%	Percentage
⁰ C	Degree Celsius
BAFRA	Bhutan Agriculture and Food Regulatory Authority
BDFC	Bhutan Development Finance Corporation
BHU	Basic Health Unit
BNPP	Bhutan National Potato Program
BPDP	Bhutan Potato Development Program
CA	Commission Agent
CF	Contract Farming
CIP	International Potato Centre
CLSD	Crops and Livestock Services Division
CORRB	Council for Renewable Natural Resources Research of Bhutan
CSG	Contract Seed Growers
CV	Coefficient of Variation
DAO	District Agriculture Officer
DOA	Department of Agriculture
DOAH	Department of Animal Husbandry
DOF	Department of Forestry
DOP	Department of Planning
DRC	Department of Revenue and Customs
DSC	Druk Seed Corporation
EPO-NS	Elite Progeny Orchards and Nursery Scheme
ESD	Effective Seed Demand
FASU	Farmers Association Support Unit
FCB	Food Corporation of Bhutan
FM	Financial Manual
FYM	Farm Yard Manure
GGLS	Group Guarantee Lending Scheme
GTZ	German Technical Cooperation

gm	gram
ha	hectare
kg	kilogram
km ²	Square kilometer
LDC	Least Developed Country
LUPP	Land Use and Planning Project
m	meter
Max	Maximum
MB ¹	Maintenance Breeding
MB ²	Management Board
Min	Minimum
mm	Millimeter
MOA	Ministry of Agriculture
mt	metric ton
mt ha ⁻¹	metric ton per hectare
NASEPP	National Seed and Plant Production Program
NPHU	National Post Harvest Unit
NSB	National Seed Board
Nu.	Ngultrum (1 US\$ = Nu. 45.01) (Bhutanese Currency)
ORC	Out Reach Clinic
PPD	Planning and Policy Division
QCRS	Quality Control and Regulatory Services
RDP	Rural Development Project
RGOB	Royal Government of Bhutan
RNR	Renewable Natural Resources
RNR-RC	Renewable Natural Resources Research Center
RSPN	Royal Society for the Protection of Nature
SD	Standard Deviation
SDC	Swiss Agency for Development and Cooperation
SPGG	Seed Potato Growers Group
SRR	Seed Replacement Rate

SVS	Seed Village Scheme
SWOT	Strengths, Weaknesses, Opportunities and Threats
TSD	Total Seed Demand
VCU	Value for Cultivation and Use
