ACKNOWLEDGEMENTS

The author wishes to express his deepest and sincerest appreciation and gratitude to the following persons who have assisted and contributed to the completion of his study and the conduct of thesis:

Assoc. Prof. Dr. Sansanee Jamjod, the chairman of the advisory committee, for her invaluable guidance, suggestions, and supervision throughout the study duration.

Prof. Dr. Benjavan Rerkasem the co-chairpersons of the advisory committee, for her support, deep concern and guidance in research planning, and constructive comments on the thesis outline and manuscript and Dr. Natchanapong Vongburi, Director of Chai Nat Field Crop Research Center for his critical comments and invaluable suggestions to improve my thesis.

Sincere appreciation to Dr. Monthathip Chanphengxai, Director General of NAFRI; Mr. Phouthone Sophathilath head of Capacity Building Component and all staff of the SIDA founded Lao-Swedish Upland Agriculture and Forestry Research project at NAFRI for granting the author the scholarship and their support during his field works in Laos.

Special thanks to Mr. Houmchitsavath Sodarak the former director of Northern Agriculture and Forestry Research Center (NAFReC), Mr. Khamdok Songyikangsitho head of Production System Research Section under NAFReC and all staff of this section for supporting and facilitating his study.

I am thankful to Assoc. Prof. Dr. Dumnern Karlanee, Chairman of the post graduate committee of Department of Agronomy, Faculty of Agriculture, Chiang Mai University and his staff for facilitating his study; to Miss. Tonapha Pusadee, Dr. Sunisa Niruntrayakul and Mr. Anuphong Wongtamee, the former Ph D. student in molecular laboratory are acknowledged for their advice in laboratory analysis and friendship.

Thanks for all staff of the CMUPN*lab*, Agronomy and Multiple Cropping Centre, Faculty of Agriculture, Chiang Mai University, student at the CMUPN*lab*, Department of Agronomy, Faculty of Agriculture, Chiang Mai University for their help and friendship.

I gratefully acknowledge the SIDA founded Lao-Swedish Upland Agriculture and Forestry Research project at NAFRI for awarding me with a Master degree scholarship. I also thank the McKnight Foundation for the financial support in some parts of my research.

Finally, I deeply appreciate my family, my brothers and sister for constant encouragement and understanding during my study in Thailand.
