## ACKNOWLEDGEMENTS

I would like deeply express my sincerity to my supervisor, Assoc. Prof. Dr. Chaiwat To-anun for his kindness, guidance teaching improvements and correction of my thesis. I also would like to express my grateful thank to Lect. Dr. Sarunya Valyasevi for her helpful advice and encouragement. I also thank Assist. Prof. Dr. Worawan Chaleeprom for kind suggestion and comment for my thesis.

I am very grateful to Iman Hidayat and Jamjan Meeboon for helpful technical support, useful advice, suggestions and improvements of the thesis.

My truly thank my friends, Sutasinee Chaichana, Prinn Noireung and Prateep Oupkaew for care and all their help. Matthias Künstel for inspiration, encouragement, understanding and kindly advice. Also thanks to all friends and colleague in Plant Pathology Department for friendship, care and good time.

Special thank all my beautiful friends; Wanwisa Fangfuk, Sarunya Limkhaisang, Saisunee Pankaew, Jirayoo Luntoon, Nareumol rimchan, Sureeporn nanta and Wanipa Yenjai for sustainable friendship and support me in many ways.

Finally, appreciation is presented to my father, my mother for their love, moral support, encouragement and understanding. Also my lovely sister and brother for every happy moment.

Wirachinee Thacheena
