Acknowledgements

First of all, I sincerely express my profound gratitude and respect to Assoc. Prof. Dr. Danai Boonyakiat, my thesis advisor, for his intellectual supervision, invaluable guidance and comments to the successful completion of my thesis.

I am deeply grateful to members of the thesis committee, Prof. Dr. Nithiya Rattanapanone, Lect. Dr. Tanachai Pankasemsook, Dr. Wilawan Kumpoun and Assist. Prof. Dr. Theeranuch Jareonkit who have provided me with valuable comments and suggestions on the research contents. This study would not have completed without their support.

My heartily thanks and appreciations go to some post-graduate and undergraduate students of Postharvest Technology department from years of 2003-2005 who provided me with assistance to complete my study.

I would like to thank the Department of Postharvest Technology, Faculty of Engineering and Agro-Industry, Maejo University for providing me with some chemicals and instruments used in this study.

Lastly, my heartfelt gratitude goes to my beloved wife, Mrs. Kannika Khamsee and two sons, Kasidit and Kittipitch for their love, understanding and continuing encouragement for study period.

Yongyut Khamsee
