## ACKNOWLEDGEMENT

I would like to sincerely express my deepest gratitude to my advisor, Assoc. Prof. Dr. Nuttha Potapohn, for her valuable and academic guidance during my years of study which make this dissertation possible. I also appreciate the assistance of my co-advisor and examining committee members, Dr. Weenun Bundithya and Dr. Chuntana Suwanatada during this study. My hearty gratitude also goes to Assoc. Prof. Dr. Pimchai Apavatjirut, the external examiner, and Asst. Prof. Dr. Daruni Naphrom, the graduate school examiner, for their valuable suggestions that make this thesis more informative.

I greatly appreciate the technical help of Mr. Pratchya Taywiya during the molecular working. I would like to acknowledge supports of the Subproject: Graduate study and research in agricultural biotechnology and the Development of Economic Flower Crop: Orchid (DEFECO) Project, Faculty of Agriculture, Chiang Mai University, Chiang Mai, Thailand.

Finally, I offer my great gratitude to my friends for their constant encouragement, patience, helpfulness and understanding during this Ph.D. research.

Chita Inpar
