ACKNOWLEDGEMENTS

First, the author would like to express profound appreciation and greatly indebted to her academic advisor, Dr. Budsara Limnirankul, her thesis co-advisor, Assistant Professor Dr. Yaovarate Chaovanapoonphol, thesis co-advisor, Assistant Professor Dr. Chanchai Sangchyoswat and the external examiner, Lecturer Phrek Gypmantasiri for invaluable guidance, constructive comments and suggestions and dedication of their valuable time throughout the whole research period.

The invaluable administrative support provided by Associate Professor Dr. Benchaphun Ekasingh is gratefully acknowledged. Especially the author's heartfelt gratitude to all of her lecturers in Agricultural Systems, Multiple Cropping Centre (MCC), Faculty of Agriculture, Chiang Mai University, Thailand for providing their improbable lectures, knowledge and experience to complete her study successfully.

Further, the author would like to acknowledge Thailand International Development Cooperation Agency (TICA) for awarding the scholarship throughout the study period and also thank to the Graduate School, Chiang Mai University for offering the opportunity and strong stimulation to pursue the study.

Special thanks are extended to the Department of Agriculture of the Democratic Socialist Republic of Sri Lanka for providing with this opportunity for higher studies at Chiang Mai University, Thailand. The author would like to grateful to the staff members of School of Agriculture, Kundasale, Sri Lanka including the former principal Mr. K. G. Sriyapala for their support and guidance given to arrange her visit to Thailand. Further, the coordination and guidance given for all the

arrangements by the staff of Extension and Training Division and Scholarship Division of Department of Agriculture, Sri Lanka are greatly appreciated.

Moreover, the interviewed coconut smallholder farmers, staff of Coconut Cultivation Board and Agrarian Services Centers in Gampaha district, Coconut Research Institute of Sri Lanka and all the others contributed to the survey in Sri Lanka are greatly acknowledged.

Special thanks go to all the staff of Multiple Cropping Center, especially to Mrs. Jum and Ms. Nim for their generous hospitality provided. Further, thanks are extended to all the senior and junior students and colleagues at Multiple Cropping Centre, Chiang Mai University for their warm friendship and all kinds of assistance given during the course of the study. Further all the teachers and lecturers in school and university life who showed the correct pathway are greatly acknowledged.

Finally, the deepest and heartfelt dedication to her family; beloved late parents for empowering and invaluable guidance given to achieve higher studies from the childhood. Most of the entire, author forever indebted and particularly thankful to her beloved husband Mr. Nalaka Dissanayake and beloved daughter Ms. Kulaji Dissanayake for bearing all the difficulties throughout this time giving fullest support, understanding, love and kindness to achieve this target successfully. Special thanks are extended to the author's beloved all other family members for their kind understanding and invaluable support given forever to complete the higher studies successfully.

Last and not least, the author wishes to record and thank everyone whose names could not be mentioned individually.
