## ACKNOWLEDGEMENTS

I would like to express sincere gratitude and appreciation and grateful thanks to my thesis advisor, Asst. Prof. Dr. Smatchai Chamnongkich for his valuable advice, many helpful suggestions, and encourage me throughout the duration of this thesis study.

I would like to give my appreciate many thanks to Dr. Weerawat Limroongreungrat and Dr. Patima Silsupadol to their valuable suggestions, comments, and helpful advices.

I am deeply indebted to all participants, their parents, and their coaches for their kindness and willingness throughout my experiment.

Special thankfulness is extended to the Sports Authority of Thailand for a research grant.

The special thanks go to Miss Supara Grudpan and the staffs of college of Arts, Media and Technology for assisting in setting the motion capture laboratory and data collection.

I would like to express a great thank to Mr. Uten Yarach, Mr. Eakarach Wongsaya, and all my colleges and friends for their understanding, mental supporting, and encouraging me through my thesis work.

Finally, I would like to express my gratefulness to my dearest parents, my lovely sister, and my relatives for their love and warm encouragement throughout this study.

Chanakarn Kolsil
