Acknowledgements

I would like to express my sincere gratitude and deep appreciation to my advisor, Associate Professor Virush Patanaporn for giving me worthwhile and invaluable advice. I am also grateful to my co-advisor, Lecturer Marasri Chaiworawitkul for all of her devotion and support throughout the study.

I also appreciate Assistant Professor Aunnop Koonphandh and Associate Professor Tay Chiengchee, the Education Measurement and Evaluation Department of Faculty of Education, for their professional advice in the statistic analysis.

I really wish to express my thanks to the staff and postgraduate students of the Orthodontic Department of Faculty of Dentistry, Chiang Mai University, Doctor Itchaya Sirinavin at Lampang Hospital and Doctor Clark Lambert, the Chiang Mai Dental of Seventh-day Adventists; for permitting me to use their lateral cephalograms throughout this research.

My special thanks is also extended to Doctor Somchai Duangtaweesub and Thai orthodontic foundation for the funding supporting this study.

In addition, I would like to thank my friend, Ms Fiona Jane Raggatt for her kindness refining my work in English.

Finally, my special gratitude is extended to my parents, my brother and sister for their love, understanding and spiritual support. I dedicate this thesis to them.
