ACKNOWLEDGEMENTS

I would like to express my sincere gratitude and deep appreciation to my advisor, Assist.Prof.Marasri Chaiworawitkul, for giving me worthwhile and invaluable advice. I am also grateful to my co-advisors, Assist.Prof.Somboon Chaisrisawatsuk, Lecturer Krit Kwanngern for all of their devotion and support throughout the study.

I also appreciate Dr.Siriwan Tantawanich, Faculty of Nursing, Huachiew Chalermprakiet University, for her professional advice in the statistical analysis.

I really wish to express my thanks to the staff of Orthodontic and Pediatric Department, Faculty of Dentistry, Chiang Mai University for their support and assistance, and to postgraduate students in Orthodontics for permitting me to use their patients' dental models throughout the research. the Orthodontic and Pediatric Department for using materials, equipments and financial supports

My special thanks are also extended to Professor Kevin O Carroll for his kindness refining my work in English.

Finally, my special gratitude is extended to my parents, my brother for their love, understanding and spiritual support. I dedicate this thesis to them.
