Abstract (Thai)		vi
Abstract (English)		viii
List of Tables		xv
List of Figures		xviii
List of Maps		xix
Chapter 1 Introduction		1
1.1	The real-world problem and Its social or economic significance	1
1.2	The scientific problem Its value and rationale	7
1.3	Goals and specific objectives of the study	11
1.4	Research questions and hypotheses	12
1.5	Scope of the study	14
1.6	Conceptual diagram of the research system	16
1.7	Organization of the study	17
Chapter 2 Theoretical Foundation		18
2. 1	Introduction	18

2.2	Role of isolation by von Thunen	19
2.3	A review of scholary economic perspectives on transportation and economic development	21
2.4	Current literature on Myanmar and EWEC	35
2.5	Review of the Social Accounting Matrix (SAM) and its real world application	37
2.6	A review of multiplier and balancing techniques	42
2.7	Constrained optimization problem	48
2.8	A review of Seemingly Unrelated Regressions	51
2.9	Model specification in our study	58
2.10	Conclusion	64

Chapter 3 Overview of Mawlamyine's General Condition and Sample Selection 66

3.1	Introduction	66
3.2	Features of Mawlamyine Township	66
3.3	Mawlamyine Population	68
3.4	Weather in Mawlamyine	70
3.5	Income and Consumer Price Index in Mawlamyine	73
3.6	Economic, Social and Transportation sectors	75
3.7	Sampling techniques	86
3.8	Survey Instrument	87
3.9	Data Collection	88
3.10	Research Site and Sample Household Selection	88

ลิขสิทธิ์มหาวิทยาลัยเชียงใหม่

3.11	Sampling Procedures and Types of Data Collected	90
3.12	Choosing Sample Size	91
3.13	The Percentage Used in Survey	92
3.14	Sample Characteristics	93
3.15	Conclusion	99
Chapter 4	Determinants of Food , Health Care , and Transportation Consumption in Mawlamyine	101
4.1	Introduction	102
4.2	Model Structure Based on the Selected Literature	102
4.3	Hypotheses	107
4.4	Choosing Variables for the model	107
4.5	Basic Structure of Seeming Unrelated Regressions Model	109
4.6	Empirical Findings	113
4.7	Conclusion	122
Chapter 5	Trends and Effects of Food and Overall Poverty in Mawlamyine	125
5.1	Introduction	125
5.2	Poverty Literature and Technical Poverty Measures	126
5.2.1	Definition of poverty based on selected Literature and standards	126
5.2.2	International Poverty Lines	128
5.2.3	Technical Poverty Measures	128
5.2.4	Literature on Poverty	131

	5.2.5 Previous research on poverty in Myanmar	132
5.3	Truncated Regression Model , Hypotheses ,and Data	133
	5.3.1 Applying poverty into the truncated regression model	134
	5.3.2 Hypotheses	135
	5.3.3 Data	135
5.4	The Results from Poverty Measures in Study Area	136
	5.4.1 Thinking about poverty whether income or consumption	136
	5.4.2 Determination of appropriate poverty lines for the study area	138
	5.4.3 The results from poverty measures	139
	5.4.4 Lorenz curves in rural , semi-urban and urban area	144
5.5	Implications for food and nonfood(necessities) consumption	146
	5.5.1 Variables in our model	147
	5.5.2 Priori consideration of the model	150
	5.5.3 The results from double truncation model	152
5.6	Conclusion and Policy implication	156
Chapter 6	Mawlamyine's Social Accounting matrix and Its implications	159
6.1	Introduction	159
6.2	Assumption in Model	159

6.3	Hypotheses	160
6.4	Mawlamyine's SAM structure	161
6.5	Sector disaggregation for Mawlamyine's SAM	161
6.6	Data Entry into a SAM	164
6.7	Constrained Optimization for Value of Mawlamyine Township	179
6.8	Conclusion	187

Chapter 7	Conclusion and Recommendations	189
7.1	Summary of the Economic Problem	189
7.2	Summary of the Research	190
7.3	Research's findings and an application to real world based on literature	192
7.4	Decision for Hypotheses	194
7.5	Proposed Policy model for Mawlamyine	196
7.6	Limitations of the research	199
7.7	Further Studies and extension of the research	200

References	201
Curriculum Vitae	216

LIST OF TABLES

Table		Page
1.1	Selected basic ASEAN indicators	2
1.2	HDI index for ASEAN countries	3
2.1	A Basic SAM for an economy	39
2.2	The summarization of SAM model	45
3.1	Mawlamyine Population Statistics , 2008 March	68
3.2a	Mawlamyine population by rurality, March 2008	69
3.2b	Population density in Mon State.	70
3.3	Rainfall in Mon State	71
3.4	Monthly Rainfall in Mawlamyine (1997-2006 average millimeters)	71
3.5	Monthly Mean temperature in Mawlamyine (1997-2006 Average Degree in Centigrade)	72
3.6	Per capita Income (in Kyat)	73
3.7	General CPI in Mon State compared to the base year 2002-03	74
3.8	Land utilization in Mawlamyine	75
3.9	Output and yield by crop	76
3.10	Perennial Crops in Mawlamyine	77
3.11	Road transportation sector in Mon State	78
3.12	Mon State‘s development condition (Bridges)	79
3.13	Education Sector in Mon state	81
3.14	Public Health Institutions in Mon State	82

ลิขสิทธิ์มหาวิทยาลัยเชียงใหม่

3.15	Mon State's Public Health Personnel Condition 1988 and 2008	82
3.16	Segment From Yangon – Myawaddy –Mawlamyine Road	83
3.17	The Expected Proportionate Sample	92
3.18	Minimum sample sizes for variables expressed as proportions	93
3.19a	Sampling Characteristics : Income by rurality class	94
3.19b	Sampling characteristics : income by rurality class	96
3.19c	Sampling Characteristics : Income by rurality class	97
3.19d	Sampling characteristics: income by rurality class	99
	Have you heard of the EWEC?	
4.1	Variable Names and Their descriptions	109
4.2	Seemingly Unrelated Regression Results: Determinants of	116
	Food , Health , and Transportation Consumption in Mawlamyine	
4.3	Wald coefficient test	119
4.4	Seemingly Unrelated Regression Results After Wald Test	120
5.1	Food , Non-food and poverty lines(Kyats)	139
5.2	Poverty Under per capita income and expenditure	139
5.3	Dynamic changes in the poverty headcount	141
	by the State and Division ,1997-2005	
5.4	Poverty Headcount Ratio and National Poverty Rate	143
	in Other Southeast Asia countries	
5.5	Two types of GINI under per capita income and consumption	144
5.6	Variable names and its descriptions in model	148
5.7	Descriptive statistics for shares of food and	152
	non-food(necessities)expenditure	

ลิขสิทธิ์มหาวิทยาลัยเชียงใหม่

5.8	The Effect of poverty on food expenditure ratio	154
5.9	The Effect of poverty on other basic expenditures	155
6.1	Sectors in Mawlamyine's SAM	162
6.2	Households by rurality classes	163
6.3	The Mawlamyine SAM	172
6.4	Mawlamyine 's multipliers matrix	174
6.5	Decomposition of direct and indirect impact of income multiplier on Transportation sector within production activities	175
6.6	Decomposition of total Mawlamyine 's SAM based Multiplier	177
6.7	Estimated optimal solution and range analysis for the Mawlamyine Economy	183

LIST OF FIGURES

Figure		Page
1.1	The East West Economic Corridor	5
1.2	Asian Highway Networks	6
2.1	Transportation and The economy	26
2.2	Michael Porter's Diamond Theory	33
3.1	Rainfall In Mawlamyine	72
3.2	Monthly Mean Temperature in Mawlamyine	73
5.1	Lorenz Curves in Rural , Semi-urban and Urban area	145
7.1	Linkages between infrastructure, poverty reduction and growth	194
7.2	Proposed Policy Model	197
7.3	Geographic condition of Mawlamyine	198
