## ACKNOWLEDGEMENTS

Firstly, I would like to express my sincere gratitude to my supervisor Dr. Tanachai Pankasemsuk to his wise assistance. I also would like to express my Co-adviser, Asst. Prof. Dr. Uraporn Sardud and Director Uthai Noppakoonwong. I would like to thank the thesis examining committee members, Dr. Rumphan Koslanund and Asst. Prof. Dr. Kraisri Pisithkul.

I am extremely grateful to the former director of Department of Agriculture; Ministry of Agriculture and Cooperatives; Chakarn Sangruksawong, director of Department of Agriculture; Ministry of Agriculture and Cooperatives; Jirakorn Kosaisevi, Director Pornsak Doangputtan and Director Uthai Noppakoonwong. I could not have achieved success without them.

I gratefully thank to Ms. Siree Suwanakatenikom and Dr. Wittaya Apai and everybody at Laboratory of office of Agricultural Research and Development Region 1 (OARD 1). I also have to give thanks to Ms. Pornpan Suttiyam to help me to correct papers and provide valuable comment for all my work as so to Dr. Sangtiwa Suriyong.

I also have to thank the Graduate School, Chiang Mai University, Postharvest Technology Institute, Chiang Mai University and Department of Agriculture for the research scholarship support.

I could not forget to give my thank to the many people who gave advice and help from the Postharvest Technology Institute staff and Chiang Mai Field Crops Research Center staff (Mrs. Hatairat Keha and staff). Moreover, I would like to apologize to the many people that I could not refer to by name.

The biggest thanks and love go to my father, my mother and brother for all their encouragements with love throughout the years of study.

Kallaya Withee
